

New Sales Platform Product User Manual

Dear Partner,

Welcome to our Sales Management System. This manual will guide you through the system's features, helping you quickly and accurately create and manage eSIM services.

Platform Login URL:

「Package List」

1. Overview

The "Package List" serves as your product hub and personal favorites folder. Here, you can browse, search, and manage all available packages for sale. You can also "bookmark" frequently used packages for quick access during order creation, significantly improving efficiency.

Key Functions:

1. **Browse & Search:** Acts as a product catalog to view detailed package information.
2. **Manage Favorites:** Create a shortcut list of commonly used packages for the "Create Order" page.

2. Access & Interface

- **Menu Path:** Package List
- **URL:** <https://portal.billionconnect.com/#/packageList>

The interface consists of two main sections:

- **Filter & Search Bar** (top)
- **Package Table** (bottom)

3. Key Features
